Variable Speed Direct Drive Rotary Screw Air Compressors

CPVSd 10-20 hp

Compressed Air That Pays For Itself

The Chicago Pneumatic Variable Speed direct drive compressor (CPVSd) allows you to save operating costs when your application does not require the compressor's full capacity. The ES4000 Advanced Controller automatically maintains your desired system pressure and provides only the air that your system requires on a smooth consistent basis. Variable speed technology coupled with a direct drive transmission results in energy savings of up to 30%. The CPVSd can function as a stand-alone machine or networked to a base-load compressor where it can function as a trim machine.

Standard Features:

- Low sound enclosure, as quiet as 62 dB with optional silencing baffle
- Direct drive transmission for energy savings and reduced maintenance cost
- 73-182 psig pressure range
- 20-100% turndown capacity
- ES4000 Advanced graphic controller
- 460V standard
- 230V available for tank mounted models
- IP55 TEFC High Frequency Motors designed for variable speed use
- Heavy duty, 2-stage pre-filtration
- Shipped with synthetic oil
- Easily accessible integrated inverter drives
- Stable pressure due to Variable Speed drive
- EControl 6i capable
- ICONS capable

Savings Through Energy Features

Energy cost represent about 70% of the total operating cost of your compressor over a five (5) year period. That is why reducing the operating cost of a compressed air solution should be a major focus. Variable frequency driven compressors can "cut" your energy bill by up to 30%.

Intelligent Savings

The CPVSD 10-20 series is managed by the ES4000 Advanced, an electronic control unit programmed for energy saving operation with intelligent shutdown. The ES4000 Advanced control can be programmed to shutdown in accordance with your plant air demand and reduce long periods of unloaded operation, reducing power cost. The ES4000 Advanced control feature can save a customer hundreds of dollars per year.

The ES4000 Advanced constantly monitors compressor operation and notifies you—before a problem occurs!

Features:

- Graphic Display
- Automatic Restart After Voltage Failure
- I/O Expandable
- Graphic Service Plan Indicator
- Remote Pressure Sensor Possible
- Real Time Trending
- Remote Visualization
- Master Control Capability
- Programmable daily and weekly schedule

**Screw compressors are supported by our CP Secure 1-Year Warranty with the option to extend to a full 5-year warranty (authorized start-up required and regular maintenance with factory authorized fluids and parts).*

***Excluding Two-stage Gasoline Drive Contractor Series which are covered for 1 year.*

CP compressors are supported by a network of trained service technicians who can provide complete warranty support, spare parts and technical consultation. For more information on our products, please contact your CP territory sales manager or a local authorized CP distributor.

Over 100 years of experience

Since 1901 the Chicago Pneumatic name has represented high-performance tools and equipment designed for an extensive range of applications. Today, Chicago Pneumatic has a global reach, with local customer centers around the world. Chicago Pneumatic products are tailored to the needs of the industrial, vehicle service, and construction markets. Every day we develop and manufacture new products that are meant to meet your demands not only today, but tomorrow as well.

Care. Trust. Efficiency.

Care. Care is what service is all about: professional service by knowledgeable people, using high-quality Original parts.

Trust. Trust is earned by delivering on our promises of reliable, uninterrupted performance and long equipment lifetime.

Efficiency. Equipment efficiency is ensured by regular maintenance. Efficiency of the service organization is how Original Parts and Service make the difference.

DISTRIBUTED BY

The Compressed Air and Gas Institute, CAGI, is an organization dedicated to improving the compressed air industry through established standards. As a proud member of CAGI, CP Compressors publishes all technical data in accordance with CAGI/PNEUROP PN2CPTC2 guidelines and voluntarily allows products to be selected for participation in CAGI's Performance Verification Program. With CP Compressors, our customers know they are receiving the excellent performance that we publish.
