

LIFETIME™ SERIES

LT110 Industrial Vacuum Cleaner

The World's Longest Lasting Filters

- Filters so good they last years, not months. Low, low cost of ownership.
- Heavy-duty design meant to be used day-in and day-out.
- 99.97% HEPA filter protects workers from hazardous dust emission.

The Lifetime™ LT110 has double the filter life of any other single-phase vacuum in the world.

Tackle ultra-fine powders like concrete dust, pigments and compounding dust without plugging or blinding the filters. When the canister is full, clean the filter in seconds with the external handle.

The filters just keep on working with minimal maintenance.

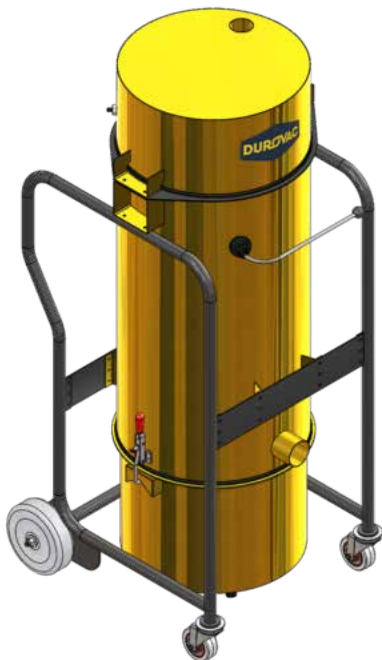

The DuroVac Lifetime LT110 is a single-phase powerhouse that easily handles a 50 foot long hose.

TRIPLE FILTRATION means hassle-free operation when you're handling fine powders. At 99.9% efficiency, the primary filter media won't easily clog, so performance never drops as the hopper fills. Vacuum continuously without stopping the system to shake the filters.

- First-stage impaction separator with internal baffle plate to protect against abrasion.
- Large main filter in a baghouse-type format.
- 99.97% HEPA filter for silica safe operation.

Specifications

Model Number	LT110
System Horsepower	2.6 Hp
Number of Hoses	1 x 2.0" Up to 50'
Air Flow - Inlet (CFM)	320
Vacuum (Maximum)	70 inches H ₂ O
Primary Filter Area (ft²)	34.9
Storage (US Gal)	20.0
Noise Level @ 3ft (dBa)	77
Weight (lbs)	135

A heavy-duty single-phase vacuum that just keeps on working.

Designed from the ground up to ensure the longest lasting filtration system, the LT110 has more than double the primary filter area of any other vacuum in its class.
